## HOW THE IMEA INCENTIVE PROGRAM OPERATES FOR A MUNICIPALLY MANAGED RESIDENTIAL SMART SOCKET GIVEAWAY PROGRAM

1. *IMEA Member Municipal Utilities use this application to set aside a specific amount of their IMEA Electric Efficiency Program Funding for a locally administered residential Smart Socket Giveaway Program.*

The IMEA Member utility may elect to use its IMEA Electric Efficiency funding to give away Smart Sockets to its residential customers. The utility may choose not to participate in this program.

2. *The IMEA municipal utility member fills out this application and sends it to IMEA.*  
The IMEA Board Member or his or her assignee completes this application – which essentially is an order form for cases of smart sockets as shown on page 6 and e-mails it to Sarah Cody ([scody@imea.org](mailto:scody@imea.org)) or Rodd Whelpley ([rwhelpley@imea.org](mailto:rwhelpley@imea.org)) or faxes it to 217-789-4642.

**NOTE:** No Minimum order, as long as you order by the case quantity. (There are 48 sockets per case.)

3. *IMEA deducts the purchase price of the smart sockets from the city's electric efficiency program funds and places the order with MaxLite.*
4. *MaxLite ships the smart sockets to the city at the address listed on page **6**.*
5. *The city gives the smart sockets to residents in a manner that reasonably assures that the smart sockets are used solely by customers of the city utility.*
6. *IMEA will deem and track the electric savings associated with the smart socket giveaway.*
